

# Treat Box

1. Trace pattern on firm paper or lightweight card stock and cut. Photocopy in assorted sizes for smaller gifts.
2. Score and fold on dotted lines. Slightly roll each flap so that the paper is not rigid.
3. Interlock flaps around a treat or small gift.

Beginning with edge A, hold it against the adjacent dotted line. Repeat with edges B and C.

The final tab will need to be tucked into the box. Flex the box gently to close the gap at the top.
